As this is a serial book published annually, it has both ISSN and ISBN. ISSN links to whole series of proceedings based on CBU International Conferences while ISBN links to this specific issue in 2015. Each article has also its own unique permanent DOI number which is located on the first page. A digital object identifier (DOI) is a unique alphanumeric string to identify content and provide a persistent link to its location on the internet. All DOI numbers begin with a 10 and contain a prefix and a suffix separated by a slash. The prefix is number of four or more digits assigned to organizations; the suffix is assigned by the publisher. All articles were peer reviewed.

INTRODUCTION

We had the great honor of organizing the CBU International Conference 2016 (CBUIC 2016) on Innovations in Science and Education in Prague the Capital of the Czech Republic. It was truly a great pleasure for us to greet a lot of participants from many different countries attending CBUIC 2016! We firmly believe that the conference will become an important international event in the field of crossindustry discussion about innovations in Education and Science.

CBUIC 2016 was organized by Central Bohemia University and Unicorn College, Prague, Czech Republic. Proceedings were published by Central Bohemia University.

There were 139 papers accepted for presentation at CBUIC 2016, contributed by over 313 authors (more than twice the number from previous year) from 28 countries. We had four plenary speeches and several well-known scientists and experts, to give invited talks at different sessions.

The purpose of CBUIC 2016 was to provide a forum for the participants to report and review innovative ideas, with up-to-date progress and developments, and discuss the novel approaches to application in the field of their own research areas and discuss challenges of doing science and innovating education approaches.

We sincerely hope that the exchange of ideas on doing research, science and improving education will help the participants on one hand, and international cooperation sharing the common interest will be enhanced on the other hand.

On behalf of the Organization Committee of CBUIC 2016, we would like to heartily thank our colleagues for all they have done for the conference. We would also like to thank the authors for their contribution to the proceedings; the participants and friends of CBUIC 2016, for their interest and efforts in helping us to make the conference possible. Also to the Editorial boards for their effective work and valuable advice, especially the CBUIC 2016 Secretariat and the CBU staff, for their tireless efforts and outstanding services in preparing the conference and publishing the Proceedings.
